Re: New Classification Code for Temporary Change in Duties (COVID-19)
Telecommuter Reassigned Employees - Classification 8873
Effective Date: May 1, 2020

COVID-19 Claims Excluded from Experience Rating
Effective Date: December 1, 2020

Members of the Rating Board:

I write to inform you that the New York State Department of Financial Services (“Department”) has approved amendments to the Rating Board’s New York Workers’ Compensation and Employers’ Liability (“Manual”) and the New York Experience Rating Plan (“Experience Rating Plan”), which are detailed herein, attached hereto, and are effective on May 1, 2020 and December 1, 2020, respectively.

I. Require Assignment of Classification 8873 for Temporary Change in Duties

The Department approved Manual Rule V(B)(4)(d) – Temporarily Reassigned Employees, which establishes new classification code 8873, Telecommuter Reassigned Employees, and requires that it be applied to the payroll of employees who, during New York’s stay-at-home order related to the COVID-19 pandemic (and future stay-at-home orders), are reassigned to either (a) not perform any work duties (idle), or (b) perform clerical work duties at home. The loss cost rate for Classification 8873 will mirror the rate for Classification 8810 (clerical office employees). Further, this provision is applicable at the start of New York’s stay-at-home order and for up to 30 days after its conclusion.

Employees who are classified to code 8871, Telecommuter Clerical Employees, are to remain classified as 8871. In other words, the new 8873 classification only applies to employees who are reassigned and meet one of the two conditions described above.

These amendments are effective for all new and renewal policies effective May 1, 2020, as well as to all in-force policies as of March 16, 2020. Please find enclosed the following modified and final Manual pages, reflecting the approved amendments: R-55; R-55a; C-28; C-570-a; and Loss Cost Page 3.

II. COVID-19 Related Claims Excluded from Experience Rating

The Department approved Experience Rating Plan Rule I(C)(4)(a)(iv), which requires that claims with a diagnosis of COVID-19 and an accident date on or after December 1, 2019 are to be excluded from the experience rating calculations of individual employers.

The occurrence of COVID-19 workers' compensation claims is unlikely to be a predictor of future claim costs incurred by an employer, and therefore their inclusion in an experience rating modification calculation would not meet the intended goal of experience rating.

Accordingly, please find enclosed the following modified and final Experience Rating Plan pages, effective as of December 1, 2020, reflecting the approved amendment: R-2 and R-2a.

If you have any questions, please contact Mr. Mark Battistelli, Vice President of Underwriting Services at (212) 697-3535, ext. 113 or at underwritingservices@nycirb.org.

Very truly yours,

	<p>(b) Wages Paid to Key Employees</p> <p>When there are no jobs in progress, wages of key individuals of construction, erection, or stevedoring, such as superintendents, foremen or engineers are assigned to the classification applicable to the work the individual would have performed if the job were in progress.</p> <p>Exception:</p> <p>If work of key employees consists exclusively of drafting or other office work, or if the employee is completely idle, wages are to be assigned to Code 8810. Code 8810, however, is not available for office time of an Executive Supervisor who qualifies for Code 5606, since it is normally expected that such an employee will spend a considerable portion of his/her time performing office work.</p>
	<p>(c) Idle Time Other than by Construction, Erection or Stevedoring</p> <p>The entire amount of wages paid for idle time to an employee engaged in work other than construction, erection or stevedoring must be assigned, without division of payroll, to the classification which normally applies to that employee.</p>

2. Experience

The experience used to calculate a risk's modification is comprised of the payroll and losses that are reported according to the Statistical Plan. For purposes of this Manual, payroll and losses may also be referred to as data. The experience used to calculate a modification is determined by Rule 2-E.

3. Payroll

The audited payroll or other exposures for each classification in the experience period are those reported according to the Statistical Plan.

4. Losses

Losses as used in this Plan, are incurred losses which are defined as loss payments plus reserves for future payments as of the valuation date. Incurred losses for each classification in the experience period are those reported according to the Statistical Plan.

- a. No loss is excluded from the experience of a risk even if the employer was not responsible for the accident that caused such loss.

Exceptions:

- i) Losses reported with Catastrophe Number 48 are excluded from experience rating calculations. Catastrophe Number 48 claims include all workers compensation claims directly attributable to the September 11, 2001 terrorists attacks with accident dates of September 11 through September 14, 2001.
- ii) Losses reported with Catastrophe Number 87 are excluded from experience rating calculations. Catastrophe Number 87 claims include all latent condition claims emanating from the rescue, recovery and clean-up operations at the World Trade Center that were undertaken between September 11, 2001 and September 12, 2002. *
- iii) A loss is not to be included in the experience of a risk if it is not required to be reported to the New York Workers' Compensation Board as defined in Section 110 of the New York Workers' Compensation Law provided that the employer pays the claim in the first instance or reimburses the carrier for the treatment rendered to the employee.

Note: An employer is not required to file a claim notice with the Workers' Compensation Board if the accident or illness requires ordinary first aid or causes loss of time from work of only one day beyond the working day or shift on which the accident or illness occurred.

- ★ iv) Losses reported with Catastrophe Number 12 are excluded from experience rating calculations. Catastrophe Number 12 claims include all workers' compensation claims directly attributable to the COVID-19 pandemic.

- b. Loss amounts may be limited in the experience rating calculation. For application of a loss limitation, refer to Rule 2-C-13.

5. Entity

An entity is an individual, partnership, corporation, unincorporated association, fiduciary, or other legal entity.

6. Risk

A risk is all entities eligible for combination under this Plan, regardless of whether insurance is provided by one or more policies or insurance carriers. A risk may be:

- a. A single entity, or
- b. Two or more entities that qualify for combination according to Rule 3-D.

RULE 1*Effective December 1, 2020 Issued July 27, 2007**2nd Reprint Original Printing*

- ★ Subject premium is reported according to the Statistical Plan. For experience rating purposes, subject premium, developed for an individual risk during its experience period, is used to determine a risk's eligibility in accordance with Rule 2-A.
