Ilion AYSO wants to thank Travis Phillips for putting us in contact with the Laborers' Local 190 and NYS Laborers' Health and Safety Fund. These groups donated 2 AED machines for us to have at all practices and games. This was going to be a huge cost for our program, and the help these organizations gave us is so greatly appreciated.

Even though we hope we never have to use these machines, we feel some relief in knowing that they are there for all of our players, coaches, and spectators.
